

The Off cut Rug

The rug is inspired by the creative workspace, where sheets of paper are layered, shifted, and left intentionally unfinished throughout the design process. The overlapping forms represent evolving ideas, while irregular, hand torn edges celebrate the beauty of experimentation. Varying pile heights create the illusion of paper floating above the surface, with each layer lifting gently from the one beneath it. This interplay of depth and shadow transforms the rug into a tactile composition that captures the fluid, ever changing nature of creativity.
