

LIQUID GOLD

Since the gift of Athena, goddess of wisdom, of an olive tree to the people of Athens, its oil has flowed through time. Great leaders have risen and fallen, anointed by its kiss. Centuries of victory, peace, wisdom now flow into contemporary rug design. Liquid Gold.

LIQUID GOLD

Olive trees are renowned as hardy trees, able to live through extreme conditions. Snow, drought and fire are represented in this collection of colourways.

LIQUID GOLD

Olives change colour as they grow, deepening green with age as represented in this colourway. The stars of gold represent the value placed on olive oil. Gold gradually replaced olive oil as currency but the trees remain scattered like coins across the landscape.
