

the HOUR between

The Hour Between captures the quiet beauty that exists between arrival and departure, light and shadow, movement and stillness. Inspired by the **changing patterns of sunlight filtering through nature**, the rug abstracts these **fleeting moments** into soft organic forms and warm, natural tones. Designed for a luxury boutique hotel, it creates a sense of warmth, tranquillity, and lasting memory within a **temporary stay**.

the HOUR *between*

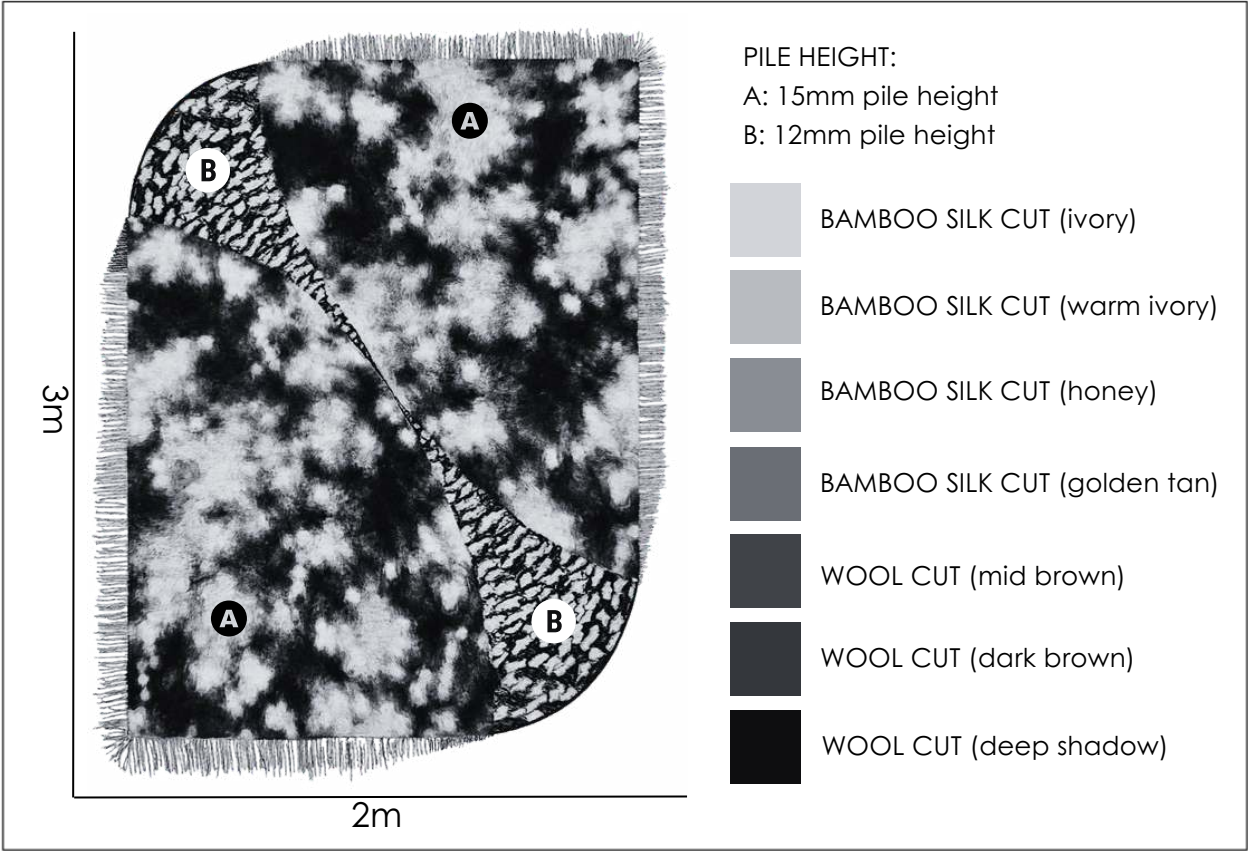

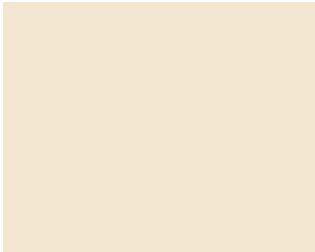

This rug embodies *The Hour Between* by abstracting the fleeting patterns of sunlight filtering through nature into soft, organic forms that evoke warmth, stillness and movement. The layered textures, dappled light effects, and natural palette reflect the quiet **transition** between light and shadow, creating an atmosphere of calm and understated luxury. Designed for a boutique hotel, it transforms a temporary space into a **memorable** experience, encouraging guests to pause, connect, and appreciate the beauty of **the moment**.

the **HOUR** *between*

The composition uses organic forms, layered pile heights, and subtle tonal variation to create **visual rhythm and depth**. Areas of bamboo silk **catch and reflect light**, while the woollen sections **absorb** it, reinforcing the interplay between brightness and shadow. This balance of texture and material creates a refined, tactile surface that evolves as guests move through the space.
